

UNIVERSITY OF ASIA PACIFIC

Department of Computer Science & Engineering

Artificial Intelligence Lab

Course Code: CSE 404

Assignment -1

Student Name : Md. Sohanuzzaman Soad

Student ID : 18101064

Section : B1

Date of Submission : 18.08.2021

Problem Statement: Develop a program to represent your family tree in Prolog. Also show the below relationships:

- First Cousin
- First Cousin Once Removed
- First Cousin Second Removed
- Second Cousin
- Second Cousin Once Removed
- Second Cousin Twice Removed
- Third Cousin Once Removed
- Third Cousin Twice Removed

Used Tools : SWI – Prolog, Microsoft Word

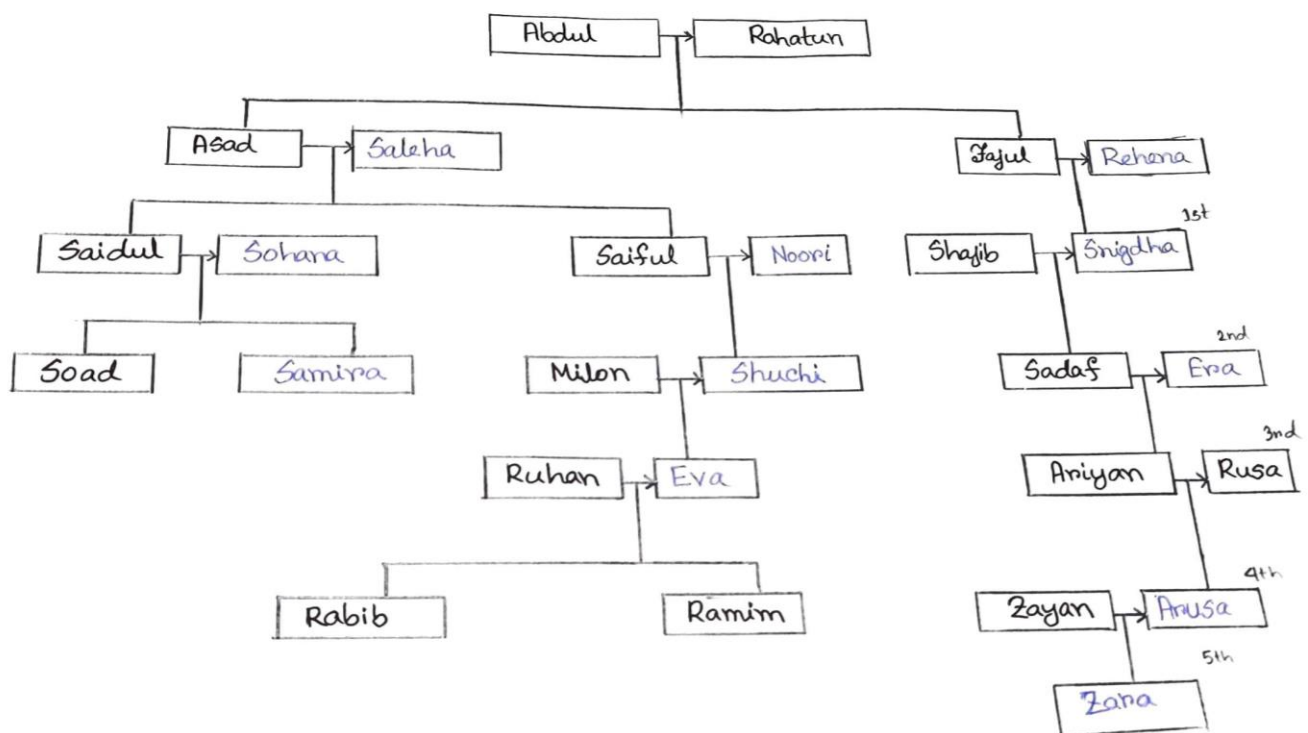

Fig: Family Tree

Output:

Male Persons :

```
% c:/Users/sohan/OneDrive/Documents/Prolog/test_tree.pl compiled 0.00 sec, 66 clauses
?- male(Who).
Who = abdul ;
Who = asad ;
Who = tajul ;
Who = saidul ;
Who = saiful ;
Who = shajib ;
Who = sadaf ;
Who = milon ;
Who = soad ;
Who = ariyan ;
Who = zayan ;
Who = ramim ;
Who = rabib.
```

Female Persons:

```
?- female(Who).
Who = rahatun ;
Who = saleha ;
Who = rehena ;
Who = sohana ;
Who = noori ;
Who = snigdha ;
Who = era ;
Who = shuchi ;
Who = samira ;
Who = eva ;
Who = rusa ;
Who = arusa ;
Who = zara.
```

Father – Son Relation:

```
?- father(Child,Father).  
Child = asad,  
Father = abdul ;  
Child = tajul,  
Father = abdul ;  
Child = saidul,  
Father = asad ;  
Child = saiful,  
Father = asad ;  
Child = snigdha,  
Father = tajul ;  
Child = soad,  
Father = saidul ;  
Child = samira,  
Father = saidul ;  
Child = shuchi,  
Father = saiful ;
```

```
Child = sadaf,  
Father = shajib ;  
Child = ariyan,  
Father = sadaf ;  
Child = eva,  
Father = milon ;  
Child = rabib,  
Father = ruhan ;  
Child = ramim,  
Father = ruhan ;  
Child = zara,  
Father = zayan.
```

Mother-Child Relation:

```
?- mother(Child,Father).  
Child = asad,  
Father = rahatun ;  
Child = tajul,  
Father = rahatun ;  
Child = saidul,  
Father = saleha ;  
Child = saiful,  
Father = saleha ;  
Child = snigdha,  
Father = rehena ;  
Child = soad,  
Father = sohana ;  
Child = samira,  
Father = sohana ;  
Child = shuchi,  
Father = noori ;  
Child = sadaf,  
Father = snigdha ;  
Child = ariyan,  
Father = era ;  
Child = eva,  
Father = shuchi ;  
Child = rabib,  
Father = eva ;  
Child = ramim,  
Father = eva ;  
Child = zara,  
Father = arusa.
```

Siblings:

```
?- sibling(X,Y).
```

```
X = asad,  
Y = tajul ;  
X = tajul,  
Y = asad ;  
X = saidul,  
Y = saiful ;  
X = saiful,  
Y = saidul ;  
X = soad,  
Y = samira ;  
X = samira,  
Y = soad ;  
X = rabib,
```

```
Y = rabib ;  
X = asad,  
Y = tajul ;  
X = tajul,  
Y = asad ;  
X = saidul,  
Y = saiful ;  
X = saiful,  
Y = saidul ;  
X = soad,  
Y = samira ;  
X = samira,  
Y = soad ;  
X = rabib,  
Y = ramim ;  
X = ramim,  
Y = rabib ;
```

Grandparents:

```
?- grandparent(GrandChild,GrandParent).
GrandChild = saidul,
GrandParent = abdul ;
GrandChild = saidul,
GrandParent = rahatun ;
GrandChild = saiful,
GrandParent = abdul ;
GrandChild = saiful,
GrandParent = rahatun ;
GrandChild = snigdha,
GrandParent = abdul ;
GrandChild = snigdha,
GrandParent = rahatun ;
GrandChild = soad,
GrandParent = asad ;
GrandChild = soad,
GrandParent = saleha ;
GrandChild = samira,
GrandParent = asad ;
GrandChild = samira,
GrandParent = saleha ;
GrandChild = shuchi,
GrandParent = asad ;
GrandChild = shuchi,
GrandParent = saleha ;
GrandChild = ariyan,
GrandParent = shajib ;
GrandChild = ariyan,
GrandParent = snigdha ;
GrandChild = sadaf,
GrandParent = tajul ;
GrandChild = sadaf,

GrandParent = rehena ;
GrandChild = eva,
GrandParent = saiful ;
GrandChild = eva,
GrandParent = noori ;
GrandChild = rabib,
GrandParent = milon ;
GrandChild = rabib,
GrandParent = shuchi ;
GrandChild = ramim,
GrandParent = milon ;
GrandChild = ramim,
GrandParent = shuchi ;
```

Great-Grandparent:

```

?- greatgrandparent(GreatGrandChild,GreatGrandParent).
GreatGrandChild = soad,
GreatGrandParent = abdul ;
GreatGrandChild = soad,
GreatGrandParent = rahatun ;
GreatGrandChild = samira,
GreatGrandParent = abdul ;
GreatGrandChild = samira,
GreatGrandParent = rahatun ;
GreatGrandChild = shuchi,
GreatGrandParent = abdul ;
GreatGrandChild = shuchi,
GreatGrandParent = rahatun ;
GreatGrandChild = ariyan,
GreatGrandParent = tajul ;
GreatGrandChild = ariyan,
GreatGrandParent = rehena ;
GreatGrandChild = sadaf,

X = sadaf,  
Y = samira ;  
X = sadaf,  
Y = shuchi ;  
X = sadaf,  
Y = soad ;  
X = sadaf,  
Y = samira ;  
X = sadaf,  
Y = shuchi ;
```

Second Cousin Once Removed:

```
?- second_cousin_once_removed(X,Y).  
X = soad,  
Y = ariyan ;  
X = soad,  
Y = ariyan ;  
X = samira,  
Y = ariyan ;  
X = samira,  
Y = ariyan ;  
X = shuchi,  
Y = ariyan ;  
X = shuchi,  
Y = ariyan ;  
- -
```

Second Cousin Twice Removed:

```
?- second_cousin_twice_removed(X,Y).  
X = sadaf,  
Y = rabib ;  
X = sadaf,  
Y = rabib ;  
X = sadaf,  
Y = ramim ;  
X = sadaf,  
Y = ramim ;
```

Third Cousin:

```
?- third_cousin(X,Y).  
X = ariyan,  
Y = eva ;  
X = ariyan,  
Y = eva ;  
X = eva,  
Y = ariyan ;  
X = eva,  
Y = ariyan ;
```

Third Cousin Once Removed:

```
?- third_cousin_once_removed(X,Y).  
X = ariyan,  
Y = rabib ;  
X = ariyan,  
Y = rabib ;  
X = ariyan,  
Y = ramim ;  
X = ariyan,  
Y = ramim ;
```

Third Cousin Twice Removed:

```

X = eva,
Y = shajib ;
X = eva,
Y = shajib ;
X = eva,
Y = snigdha ;
X = eva,
Y = snigdha ;
X = ariyan,
Y = saiful ;
X = ariyan,
Y = saiful ;
X = ariyan,
Y = noori ;
X = ariyan,
Y = noori ;

```

Query Checks:

1. Parents Check:

?- parent(asad,abdul).

true .

?- parent(asad,rahatun).

true.

2. First Cousin Check:

?- first_cousin(saidul,snigdha).

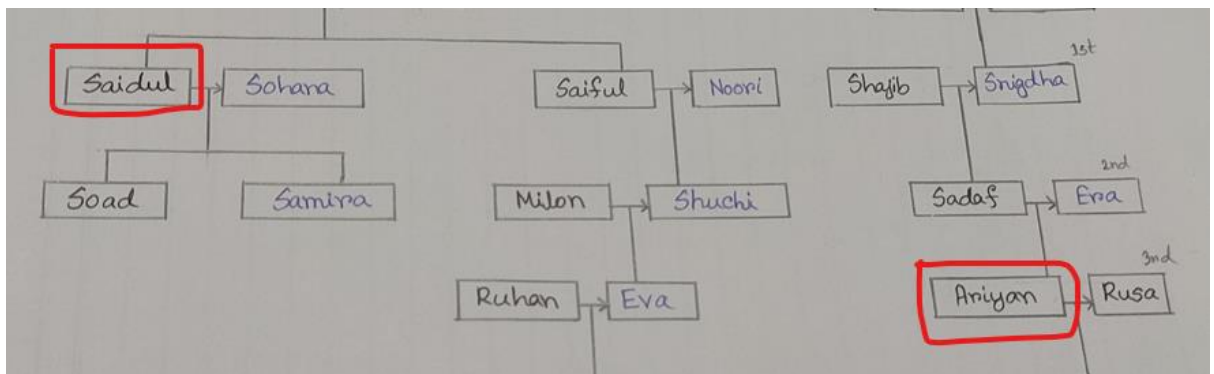

true

3. First Cousin Once Removed:

?- first_cousin_once_removed(snigdha,soad).
true

4. First Cousin Twice Removed:

?- first_cousin_twice_removed(saidul,aniyan).
true

5. Second Cousin:

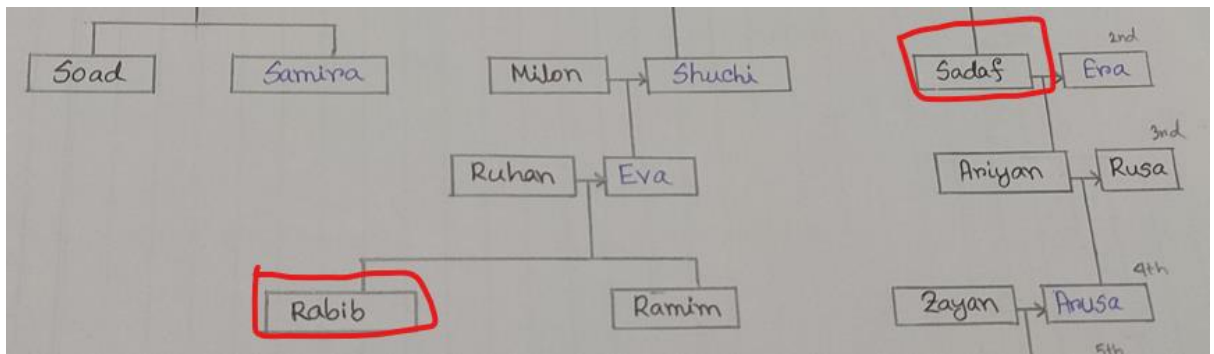

?- second_cousin(soad,sadaf).
true

6. Second Cousin Once Removed:

?- second_cousin_once_removed(soad,aniyan).
true

7. Second Cousin Twice Removed:

?- second_cousin_twice_removed(sadaf,rabib).
true

8. Third Cousin:

?- third_cousin(ariyan,eva).
true

9. Third Cousin Once Removed:

?- third_cousin_once_removed(ariyan,rabib).
true

10. Third Cousin Twice Removed:

?- third_cousin_twice_removed(eva,shajib).
true

Conclusion:

For Solve this problem I used some resource from Internet and Read about some problem and solution in Stack overflow.
